Industrial Guest Lecture on Icebergs of Data Science: Below the Surface of Buzzwords, Learning, and Career Paths

Resource person

Alice SH Wong

Founder | Principal Data Scientist
Hyperplane Consulting (Global)
Singapore

Beneath the Shiny Mirror

This talk aims to provide an overview of Data Science's core phenomena that lie below its shiny surface and dispel some of the myths surrounding it. We will dive into the core fields and skill sets that make up Data Science, clarifying buzzwords along the way, as well as learn how to carve out optimal learning and career paths amid the sea of learning and career advice out there.

 **12th February 2022 (Saturday)**

 **09.00 am to 11.00 am**
