

VIT-AP SCHOOL OF LAW (VSL)

CRIME SCENE INVESTIGATION REPORT

Introduction

VIT-AP SCHOOL OF LAW, organized a crime scene investigation competition in Room 117 and Moot Court Hall at AB-2, between 3:00 to 6:00 PM on 10th September 2022, inspired from the Diane Downs and Sharon Tate murder cases and the crumbs were taken from series Brooklyn 99.

The competition was coordinated by Palash Varma, Bhavya Mantena, Sutharshan and Srinkhi Penumaka of third year LLB.

Details of the Competition

There were a total of 10 teams packed with full vigor and enthusiasm. All the contestants were asked to assemble in the moot court for an introductory opening speech along with a brief about the backstory of the scene and rules and regulations. Then they were requested to visit and analyze the crime scene for 10 minutes and were given 15 minutes to make a report with sketch and all the other necessary things to find -

1. Who was the killer?
2. How the murder happened ?
3. Why the murder happened?

The participants took the competition very seriously and went through the crime scene thoroughly to find the evidence without leaving the corners of the room. After going through the scene the participants were allocated a room to make the report on which they were evaluated. Later, the contestants reports were collected and the coordinators themselves evaluated them with the help faculty Prof. Sneha Mulla. The reports were top-notch that the judges found it hard to evaluate. There was an extravagant and superb performance from all the teams.

Though all teams performed well, only two teams were able to find the killer right and create the most relative story. Their justification of their story was astonishing and displayed a great team spirit and captivating coordination within their team holding the winners and runner-ups medals.

The winners were **TEAM 09** consisting of

Laam Lakshmi Priya

Rajanala Karthika Vijaya Sree

Chintha Sravya

And the runners-up were Team 02 consisting of

Beeda Rashmitha Rani Yadhav

Anagha Promod

Beeda Bhavitha.

Both the winners and runner-up teams received their awards and professor Sneha Mulla expressed her views and suggestions related to the competition followed by Mantena Bhavya delivering the vote of thanks to wind-up the event.
