

NATIONAL SCIENCE DAY - 2023 (February 28th, 2023)

Science Exhibition Contest

On the occasion of “**National Science Day**”, the School of Advanced Science (SAS) at VIT-AP University is organizing a series of events on **28th February, 2023**. This year’s theme of the National Science Day has been chosen as “**Global Science for Global Wellbeing**”. Keeping that in mind, our school (SAS) is conducting a **science exhibition contest** where students from school as well as college/universities are encouraged/invited to show their creativity and flourish their scientific knowledge/ideas.

Exhibition Venue and Time:

This contest will be in offline mode and arranged at the VIT-AP campus.

Eligibility Criteria:

School Students - 11th and 12th Standard (currently enrolled in any higher secondary school in India)

or,

UG and PG Students (pursuing UG/PG degrees in any science/engineering discipline enrolled in any Indian universities/colleges)

Guidelines:

- Prior to registration, interested students must show/verify/modify their project with their science teacher/professor such that a minimum quality can be maintained for this competition.
- All student must register through the [proper link](#). One time registration fee Rs. 50/- (per student), will be required.
- In case, the student(s) decides to withdraw, he/she should inform the organising committee without delay, so that the committee can assign the withdrawn/cancelled slot to other applicants.
- Entry spots are limited, hence, the interested candidates are suggested to apply and register early. Once all the spots are occupied, applications will not be accepted.
- At the fair, space for exhibition will be given only for those applications which have been received within deadline.
- Tables will be provided to set-up the exhibit. Remember, all the exhibits must be self-supported; no items or pieces will be entertained from the authority.
- All the exhibits must be displayed till the end of the fair.
- The regular safety norms must be followed.
