## Spoken English Masterclass (A Value Added Course)

offered by

**School of Social Science and Humanities (VISH)**

Fluency in English can help students in job interviews, higher studies in foreign universities, TOEFL, IELTS, and day to day conversations with their friends and colleagues. Spoken English Masterclass (SEM) aims to initiate them into the journey towards fluent and effective English communication. The short course for 30 hours is designed to break all kinds of language barriers and develop excellent English-speaking skills among the learners. Therefore, the course is particularly designed for those students who are dead shy of speaking in English for whatever reason. First, the students will be assessed on their current level of spoken English and attempts will be made to identify the reasons for their overall linguistic inefficiency. Then they will be instigated, prodded, and supported to open-up and start speaking in English. The primary requirement is that the students need to participate and engage a lot with the faculty as well as with the rest of the class. And of course, they need to have the desire to speak fluently and confidently.

### Course Benefits :-

- ★ The students will be able to speak in public space without hesitation.
- ★ It will make them speak correct English in real situations like job interviews, presentations, group discussions etc.
- ★ Students will learn the basics of pronunciation, grammar, fluency, rate of speech, and neutral accent.
